

eScript360

Changing
Pharmacy
Forever

It's time to change the
way you think about
getting your medication

Welcome to
Pharmacy Redefined

eScript360.com

We make it easy to get the care you need.
Save with or without insurance.

We do the heavy lifting to lighten your prescription drug costs

Today's prescription model isn't serving anyone. Not patients. Not physicians. The system needs a reboot. And that's where we come in.

We launched eScript360 as a new kind of pharmacy that streamlines the process between pharma and the patient.

By creating a direct and transparent process, we have reduced prices and raised value simultaneously. We did our homework, and we understand that you need an advocate in your community. Our mission is to make it easier and more affordable for you to get the medication you need.

We carry over 90% of FDA approved medication offered in the U.S.

Many available for \$24 or less with or without insurance

Our solution works for everyone

Type of insurance	Can eScript360 help?
No Insurance	✓
Commercially Insured	✓
Medicaid	✓
Medicare	✓

For each qualifying medication
